Professional Summary

Software Developer with 3 years of experienced in building scalable web applications, enterprise solutions, and AI-driven systems. Skilled in full-stack development using **ASP.NET MVC, ASP.NET Core, Vue.js, React.js, JavaScript, SQL**. Experienced in delivering high-performance, secure applications and collaborating in Agile teams.

Technical Skills

Languages: C#, SQL, JavaScript

Frameworks : ASP.NET Core, ASP.NET MVC, Vue.js, React.js

Libraries/Tools: Entity Framework, LINQ

Databases: SQL Server, MongoDB, MySQL

Tools & Platforms: Git, Postman, Swagger, Jira, SSMS, Azure

Core Competencies: RESTful API Development, Authentication & Authorization, Stored Procedures, Enterprise Application Development, CI/CD Pipelines

AI Skills: Generative AI, Prompt Engineering, LLM Integration (ChatGPT, Claude), AI-powered Application Development

Professional Experience

Software Developer | Knowledgeflex Technologies Pvt Ltd

📍 Bangalore | Sep 2023 – Present

- Engineered a **Visitor Management System** with automated visitor registration, pass generation, and real-time dashboards—enhancing operational efficiency and on-site security management.
- Built and integrated **RESTful APIs** enabling seamless communication between the front-end and back-end systems, improving data flow efficiency and system reliability.
- Developed a multi-level authentication module with client-specific access controls and **QR-based** login features, ensuring secure and seamless entry for users.
- Developed and deployed enterprise-grade **web applications** using **Vue.js, ASP.NET Core/MVC, and SQL Server**, delivering secure, scalable, and high-performance solutions across multiple domains.
- Built an AI-powered chatbot platform supporting multi-agent workflows (HR, Sales, Support) using Flask, Vue.js, and MongoDB.

- Integrated LLM APIs for dynamic responses and implemented real-time communication using WebSockets and voice-based interactions.
- Created a **Patrolling Management System** with scheduling, geo-tracking, and real-time reporting capabilities, reducing manual supervision and strengthening compliance and accountability.
- Implemented **role-based authentication and authorization frameworks**, enhancing data protection, compliance, and user access control across multiple enterprise applications.
- Collaborated in cross-functional teams following Agile methodologies, ensuring **on-time delivery** of solutions tailored to client needs while maintaining **code quality, documentation, and scalability** standards.
- Designed and deployed **multi-tenant architecture** for enterprise clients, enabling customization and scalability across multiple organizations with minimal configuration.
- Integrated **real-time analytics and reporting dashboards** using advanced visualization components, improving decision-making and monitoring efficiency for clients .

Software Developer | IRely Soft Services India Pvt Ltd

📍 Bangalore | Jun 2023 – Aug 2023

- Gained practical experience in **ASP.NET, SQL Server, and Sanch JS** during a structured internship.
- Contributed to **feature enhancements and debugging** in internal projects.
- Strengthened understanding of **full-stack development principles** through hands-on project exposure.
- Worked with SQL Server for data operations and query handling.

Education

Bachelor of Engineering (B.E) in Computer Science (8.0/10)

Visvesvaraya Technological University | 2018-2022

Board of Intermediate Education (8.6/10)

Sri Gayatri Junior college | 2016-2018

Board of Secondary Education (9.0/10)

Indian School of English | 2015-2016

Certifications

- **Vue.js** – Knowledgeflex Technologies Pvt Ltd
- **ASP.NET** – Knowledgeflex Technologies Pvt Ltd
